

Fall Security Checklist for Bay Area Businesses

Use this printable checklist during your next seasonal walkthrough to ensure your Bay Area business is prepared for fall-related security risks.

Lighting Audit

- ☐ Check all exterior lights (parking lots, entrances, alleys) for function
- ☐ Replace burnt-out bulbs with energy-efficient, bright LEDs
- ☐ Confirm all motion sensors are properly timed and triggering
- ☐ Ensure entrances and exits are well-lit after daylight saving time ends

Camera Coverage Map

- ☐ Review live camera feeds and identify any blind spots
- ☐ Adjust angles and zoom levels for seasonal changes (e.g., falling leaves)
- ☐ Clean camera lenses of dust, spider webs, or rain residue
- ☐ Verify remote access is working from your mobile or desktop

Patrol Timing Worksheet

- ☐ Evaluate current patrol schedules for coverage gaps during dark hours
- ☐ Increase patrols during early evenings when it gets dark faster
- ☐ Log recent incidents or reports to identify hot spots
- ☐ Update routes and timing as needed based on seasonal activity

Emergency Contact Updates

- ☐ Confirm that all staff emergency contact numbers are up to date
- ☐ Make sure your security provider has updated keyholder info
- ☐ Test emergency alarms or panic buttons for proper response
- ☐ Review fire drill and evacuation procedures for new team members

Bonus: Weather Preparedness

- ☐ Secure outdoor signage, fencing, or lightweight structures from wind
- ☐ Inspect drainage systems near entrances for flooding risks
- ☐ Schedule fall HVAC maintenance for indoor safety and comfort
- ☐ Review any upcoming construction that may impact security
